Signature of Breeder: Signature of Male Owner:

³⁵/₁₇ The female should be registered in the **NHSB**. If this is not the case, the original (foreign) pedigree should be sent for registration in the NHSB.

³⁵/₁₇ The **names** of the **female** and **male** and the **data** of the **owners** must conform to the **pedigree or registration certificate** information on file. If not the case, the correct name with correct address, city or initials must first be corrected on the pedigree and/or registration certificate! This transfer of date must take place before the birth of the puppies.

³⁵/₁₇ For the use of a **foreign stud**, a **copy of the FCI recognized pedigree** should be sent with a full **three-generation pedigree** (= stud + parents + grandparents). If any of this lineage is missing on the FCI pedigree (if there is a cross-out, empty box, or text "not authenticated", etc.), you can still submit a Mating Declaration.

³⁵/₁₇ If the female or male have achieved show titles to be listed on the pedigree of the puppies, please send them along.

³⁵/₁₇ For Mating Declarations where **artificial insemination** is used, extra charges are required. (Art.III.21,lid 5&6 KR).

³⁵/₁₇ If possible, the Mating Declaration should be **in our possession within three weeks of the mating**. Beyond this time we are forced to charge an administration fee. (see price list).

³⁵/₁₇ Your pups should be micro-chipped by the **authorized chipper** of the Raad van Beheer, **not** by the veterinarian.

**This form must be received by us within three weeks of coverage:
Raad van Beheer, Postbus 75901, 1070 AX Amsterdam.**
